

## PRESS RELEASE

### **Prime Engineering Selected to Provide Site Development and Surveying Services for Le Jardin, a New Luxury Community in South Fulton**

Atlanta, Georgia, March 15, 2006 – **Prime Engineering** was selected to provide site development and surveying services for **Le Jardin**'s Tapestry Subdivision in South Fulton. Le Jardin is a 1100-acre parcel of land in South Fulton being developed by a partnership formed by Atlanta Braves outfielder Brian Jordan, and developer Stephen Macauley. The development comprises primarily two luxury communities: Giverny and Tapestry. Prime Engineering is providing site development and surveying services for Tapestry, a 700 acre, 900 home development. Nearly 250 acres have been set aside for greenspace and amenities will be connected by pathways, parks, and gardens.

Prime services include lot layouts; concept plans; landscape control; grading plans; utilities design including stormwater, sanitary sewer, and waterline networks; construction documents; floodplain and erosion control plans; zoning and rezoning expertise; and permitting.
