

Prime Engineering Hires Aviation Project Manager

Atlanta, Georgia, July 2, 2007 – Prime Engineering has recently hired Mr. Kevin Merritt, PE to fill the position of Project Manager in its Aviation Department. Mr. Merritt has nine years of experience as an engineering Project Manager, specializing in civilian and military aviation projects. He has performed project management, civil design and construction management (including site planning, facilities design and layout, specialty systems design, cost estimating, and construction inspection) for taxiways, aprons, lighting systems, drainage systems, and similar airside and airport features. Mr. Merritt's work experience encompasses both general aviation and large-scale commercial airports, including Dallas-Love Field and Cincinnati/Northern Kentucky International Airport.

In addition to overseeing numerous runway, hangar, and taxiway projects for privately owned corporations, Mr. Merritt also brings the benefit of several years as a Combat Engineer Officer in the United States Air Force. In this capacity, he designed and oversaw large-scale airfield and facilities projects for air bases throughout the United States as well as the Middle East.
