

COCA-COLA REFRESHMENTS ENGINEERING PROGRAM

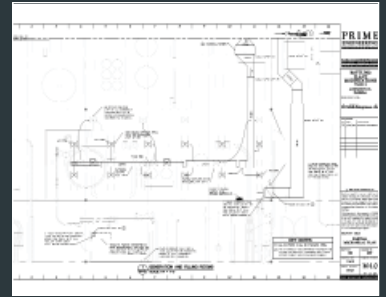

118 PROJECTS THROUGHOUT UNITED STATES

Coca-Cola has been a Prime Engineering client since 1998. Prime has delivered due diligence, process, civil, architectural, and mechanical services on projects including:

- **Traffic Report, Maryland Heights, Missouri:** Development of traffic report to optimize ingress/egress.
- **Cross-Dock Due Diligence, Evansville, Indiana:** Provided due diligence review (assessment of architectural, structural, MEP) for proposed acquisition of 19,000-square-foot facility for use as a cross-dock operation
- **Warehouse Expansion, Sandston, Virginia:** Due diligence report, architectural/engineering design services to develop basis-of-design criteria for 138,000-square-foot expansion including warehouse, rail car facility relocation, new sales center, and fleet maintenance building
- **Automated Storage and Retrieval System, College Park, Georgia:** Conceptual design services, cost estimating, project scheduling for 389,000-square-foot warehouse facility, 100,000-square-foot expansion to facility, and 70 new tractor-trailer parking spaces
- **CO² Facility Upgrade Program, 25 Sites Nationwide:** Civil, structural, and mechanical engineering services for upgrading existing CO² systems
- **Production Center, College Park, Georgia:** Due diligence, survey, design, and construction administration services for a new 57-acre facility expansion
- **Bottling Plant Product Line Addition, Jacksonville, Florida:** Design-build services for modifications to install a new bottled water production line
- **Plant Expansion, Cleveland, Tennessee:** Due diligence report, architectural and civil engineering design, bidding, and permitting for 126,000-square-foot warehouse expansion
- **Warehouse Expansion, Twinsburg, Ohio:** Design/development of due diligence analysis through bridging documents for 144,000-square-foot warehouse expansion, railroad unloading facility, and fleet maintenance facility
- **Bottling Plant Compliance Reports, Various Sites Nationwide:** Preparation of reports for Coca-Cola bottling plant facilities to ensure compliance with state licensing requirements

PRIME ENGINEERING
 CONSULTING ENGINEERS
 1000 W. BROAD ST. SUITE 100
 ATLANTA, GA 30334
 (404) 525-1100

KEY FEATURES

- ◆ 389,000 S.F. Facility
- ◆ 37 Loading/Unloading Docks
- ◆ 186 Tractor Trailer Parking Spaces
- ◆ 375 Employee/Visitor Parking Spaces
- ◆ Renovated Administrative Office Area
- ◆ New Visitor Entrance
- ◆ New QA/QC Lab and Microlab
- ◆ New Employee Entrance, Locker and Break Rooms
- ◆ New Waste Recovery Facility
- ◆ New Transportation Offices
